

PHOENIX PROJECT MANAGEMENT

Personal commitment. Professional delivery.

COMPANY PROFILE

**PhoenixPM is a specialist Project Management firm,
delivering infrastructure projects for Clients throughout Australia.**

PhoenixPM is able to offer services across a diverse range of projects, and can draw on our considerable experience to deliver quality, value for money outcomes providing the high level of service to support and exceed expectations.

Our commitment to Client relationships is highlighted by PhoenixPM proudly having continuing business as the foundation work-load for our organisation.

THE TEAM

At PhoenixPM, we understand that our people are your people, and there's nothing more important to a Client than getting the right people for the job. PhoenixPM is committed to providing the most up to date training and professional development for our staff; maintaining a current knowledge base in Project Management best practice.

It is a fundamental strength of the team that all project staff have well developed core competencies in communication, planning and problem solving, as well as a solid grounding in the fundamentals of Project Management tools and techniques. Whether we can offer you a once off service, or an ongoing role of a full-time secondment, you can be sure that our people will deliver on your goals.

PhoenixPM has experience in all phases of Project Management from scoping and option development through to planning and design, delivery and commissioning.
